

# [www.herboyd2.hu](http://www.herboyd2.hu) – Terms and Conditions

## **1. Registration and User Account**

Participation on the online game servers of [www.herboyd2.hu](http://www.herboyd2.hu) (hereinafter referred to as the "Operator") is strictly subject to the full acceptance and adherence to these Terms of Use.

By registering or logging into the Operator's game servers, the user agrees to the following Terms of Use.

Utilizing the Operator's services or logging into its game servers requires prior registration of a user account.

**1.1** Participation on the Operator's game servers requires completing the registration form. During registration, the user must provide a username and password. Users may not choose a username that has already been taken, nor one that is offensive, obscene, intimidating, promotional, misleading, infringes upon the rights of third parties, or violates public morals.

**1.2** It is prohibited to register email addresses or website URLs as usernames.

**1.3** The user is responsible for the accuracy and completeness of the data provided during registration.

**1.4** A valid and Operator-approved registration entitles the user to utilize the database management services provided by the game operator.

**1.5** Registration must be completed personally. The use of automated solutions to fill out the registration form is strictly prohibited. Participation in the game requires that every action (e.g., clicks, keystrokes) is performed directly by the registered user and reflects their explicit intent.

**1.6** Upon successful registration, the user creates a user account ("account") which they independently manage.

**1.7** The transfer or assignment of user accounts is prohibited. The account may only be managed by the user who created it, and this user is fully responsible for all activities associated with the account.

**1.8** Unauthorized access to user accounts constitutes a computer crime, violating both these Terms of Use and applicable laws.

**1.9** All information necessary for accessing and managing the user account (e.g., passwords) is confidential. The user is responsible for safeguarding this information.

**1.10** The user must not disclose this information, with the exception of their #ID, to anyone, including relatives, acquaintances, other users, or server administrators.

**1.11** No one, under any circumstances, is authorized to request this information on behalf of the Operator. If anyone attempts to request such information, the user must refuse and

immediately notify the Operator.

**1.12** The Operator continuously updates its game servers. Accordingly, users may only participate in the latest version of the online game and related services available at any given time.

**1.13** The use of the game is free of charge for registered users.

**1.14** The Operator reserves the right to ban or delete the account of any user who violates the registration policy at any time. In both cases, the sanction is final and irreversible.

**1.15** The Operator is neither authorized nor obligated to verify the accuracy of the information provided by users.

**1.16** By accessing the Operator's game server, the user automatically accepts the General Terms and Conditions (GTC) as well as the specific rules of the game server in question.

## **2. Items**

**2.1** Users are entitled to place virtual items (hereinafter referred to as "items") in their user accounts, provided these items were lawfully acquired during gameplay or made available for use through the official game website in exchange for virtual currency.

**2.2** The Operator, as part of its database management activities, assumes responsibility solely for maintaining records of these items. Only the user associated with the specific user account is authorized to use the items recorded in that account.

**2.3** The user is solely responsible for the lawful use of the items. In cases of unauthorized use or loss of items, the user may not claim that others managed or controlled the items.

**2.4** The Operator is only obligated to investigate and resolve issues related to missing items from a user account if the disappearance is attributable to a database error (e.g., a software malfunction). In such cases, the Operator will verify the circumstances within its records and restore any missing items.

**2.5** The Operator assumes no liability for items purchased with virtual currency. Complaints related to loss or potential fraud in connection with such items will not be accepted. Users are solely responsible for exercising discretion and trust during transactions or exchanges involving items.

## **3. Services**

**3.1** Violations of the game server's rules may result in temporary or, depending on the severity, permanent silencing or a permanent ban of the User.

**3.2** If a user bypasses an active ban and logs into the Operator's game server while the ban is in effect, Administrators reserve the right to reapply the ban. In such cases, the ban cannot be lifted.

**3.3** Users may appeal an unjustified ban at any time. Appeals can be submitted via the designated Facebook group.

**3.4** Information regarding a ban is displayed in the in-game console and on the banned User's profile. To expedite the review process for an unban request, the user must upload a demo and three screenshots. Based on this evidence, the Administrator will decide whether to remove the active ban or reject the unban request. It is the User's sole responsibility to ensure that the application (game client) is capable of generating demos and screenshots. For example, the User cannot claim that the game client failed to create a demo or screenshot because the directory where the game client is located is write-protected.

**3.5** If the User fails to provide any required evidence, or if the evidence is incomplete or submitted in an improper format, the unban request will be immediately rejected. If the submitted demo reveals the use of external cheat programs, the User's request will be automatically denied.

## **4. Regulations for Service Usage**

**4.1** The Operator reserves the right to modify these Terms of Use at any time.

**4.2** Should any provision of these Terms of Use become invalid and/or contradict applicable legal regulations, it shall not affect the validity of other provisions. The invalid provision will be replaced by a provision mutually agreed upon by the contracting parties that is legally valid and closest in economic meaning and purpose to the original invalid provision. This principle shall also apply to any omissions.

**4.3** Until revoked, the following rules apply to the Operator's game servers:

**4.3.1** The use of any external software or tools to enhance gameplay, commonly referred to as cheating, is strictly prohibited.

- This includes, but is not limited to, AimHack, Triggerbot, WallHack, Knifebot, and similar tools.
- Modifying configuration files (.cfg, .rc) does not constitute cheating, but Administrators may request the submission of these files for review.
- In cases of cheating, the User Account will be permanently banned from the Operator's game servers. Such bans are irrevocable.

**4.3.1.1** If the Anti-Cheat system enforces a ban during gameplay, the provisions of Sections 3.3 and 3.4 shall apply.

**4.3.1.2** If the Anti-Cheat system enforces a ban within 20 seconds of joining, Section 4.3.1.3 shall apply.

**4.3.1.3** If the Anti-Cheat system detects anomalies or cheating-related add-ons during gameplay, the ban cannot be removed from the User Profile but will be temporary.

**4.3.1.4** Administrators may request a "scan" from users, which must be provided upon request. Refusal or leaving the server will result in the permanent banning of the User Profile

from the Operator's game servers. Such bans are final but may be revoked at the Administrator's discretion upon submission of a demo or "blue scan." However, repeated offenses will result in irreversible bans.

**4.3.2** Logging into the server while under an existing ban based on IP address, SteamID, user account, or cookies is prohibited. If the current ban is temporary, an Administrator may escalate it to a permanent ban or impose a new one. Such decisions are final and non-reversible.

**4.3.3** The use of racist language or expressions is prohibited. Violations will result in a mute of up to 5 hours. For repeated offenses, the mute duration may extend to a maximum of 3 days.

**4.3.4** Swearing is not prohibited if used as an exclamation rather than directed at an individual. However, excessive or continuous swearing may lead to penalties under the "excessive swearing" policy.

**4.3.5** Insulting or provoking other players is prohibited. Violations will result in a mute of up to 10 hours, or in severe cases, up to 24 hours. If arguments escalate, both parties will receive a mute, with durations ranging from 24 to 48 hours depending on severity.

**4.3.6** Players under the age of 16 are prohibited from using voice chat. Violations may result in a mute lasting up to 1 year.

**4.3.7** Insulting or disrespecting the Operator or any Administrator is prohibited. Violations may result in a mute of up to 10 days. Repeat offenses may lead to the permanent muting or banning of the User Profile.

**4.3.8** Insulting the relatives of other players is prohibited. Initial offenses may result in a mute of up to 1 day, with repeat violations escalating to a maximum of 7 days. Subsequent offenses may result in the permanent muting of the User Profile.

**4.3.9** Ghosting is limited to a maximum of 6 seconds after death. Violations occurring more than 10 seconds after death will result in a mute of up to 30 minutes.

**4.3.10** Disrupting other players' gaming experience is prohibited, including excessive use of voice chat, playing music, spamming the chat, or producing microphone noise. Violations may result in a mute of up to 2 days.

**4.3.11** Advertising game servers or websites unrelated to "HerBoy" is prohibited. Violations will result in the permanent banning of the User Profile from the Operator's game servers.

**4.3.12** Impersonating an Administrator without proper authorization is prohibited. Violations may result in a ban of up to 1 month. Repeat offenses may lead to the permanent banning of the User Profile.

**4.3.13** Criticizing the Operator's game servers is allowed if expressed constructively. Otherwise, violations may result in a ban of up to 1 month. Repeat offenses may lead to the permanent banning of the User Profile.

**4.3.14** Persistently maintaining a high ping on the server is prohibited. Violations may result in a ban of up to 10 minutes.

**4.3.15** Camping at the CT spawn is prohibited. Violations will result in a warning, followed by a ban of up to 10 minutes for repeat offenses, unless the bomb is planted and the player does not remain in the spawn for more than 10 seconds.

**4.3.16** Prolonged camping or staying near the starting area by terrorists is prohibited. The primary objective for terrorists is to plant the bomb promptly. Terrorists may roam near the starting area for up to 1 minute and 30 seconds. Violations may result in a ban of up to 10 minutes.

**4.3.17** Exploiting game modes, system errors, or game bugs is prohibited. Violations may result in a ban of up to 2 hours or, in severe cases, a permanent ban.

**4.3.18** It is strictly prohibited to use sprays containing information about minors, personal data of others, sexual content, or material promoting other servers. Violations of this rule will result in permanent bans.

**4.3.19** The use of sprays with pornographic content, disturbing imagery, or material causing frustration is forbidden. Violations of this rule may result in a ban lasting 1-3 days.

**4.3.18** The "community cleansing" User Profile ban applies when the User Profile has more than 6 severe mutes or bans. Such bans are irreversible and can only be lifted by the leadership or the Operator.

**4.4** Existing bans or mutes imposed prior to the enforcement of these Terms of Use may be deactivated or extended at any time by the Operator or the responsible Administrator. Complaints regarding such actions will not be accepted.

**Effective Date of Terms and Conditions:** October 20, 2024, 00:00

**Last Modified:** December 20, 2024, 23:10
